

## **Director and Volunteers Needed**

We would like to hear from community members who would be willing to consider joining the board of directors of CBRA. We welcome anyone who has an interest in Special Events (such as Christmas caroling in the Village), traffic issues, Queenswood, Emergency Preparedness, Gyro Park, Visioning the Future of Cadboro Bay and Land Development to name a few. If you are not interested in the responsibilities of board director, we also need volunteers to help on committees on almost all of the topics. While urban planning and architectural skills would be particularly useful, anyone with an interest in preserving and improving our beautiful community is invited to contact me (see below). It's an opportunity to meet some wonderful people, learn more about and become involved in Cadboro Bay issues and enlarge your circle of friends in the community. It really does take a village!

Elizabeth Borek
