

Haro Woods - Residents' Voices Have Been Heard!

The CRD/Saanich joint announcement of a land exchange agreement that will preserve 94% of Haro Woods was welcomed by residents, some of whom have worked for over a decade for its preservation. While specific legislation needs to be brought forward to rezone Haro Woods into a park and many engineering questions remain regarding placement of attenuation tanks and mitigation measures, particularly during the construction phase, this announcement represents a major positive step forward.

Saanich Mayor Leonard states: "Strong resident feedback supported the move.....". Residents' voices have been heard!

Congratulations and thanks to all residents and CBRA boards who have worked so hard on behalf of Haro Woods for many years. Congratulations as well to Saanich Mayor and Council and staff at both Saanich and CRD for producing a Win/Win solution.
