

## **Saanich Police Warn that Break-ins Continue**

There has been a marked increase in burglaries reported in the community. Please protect your home and property by locking doors, closing all windows and setting the alarm before you leave. Consider placing valuables in your safety deposit box. Residents also report tools have been stolen from work sites and workmen should be notified to lock up their tools when not in use. If you are going away, ask neighbours to watch your home. Report all suspicious activity to Saanich police.
